

WINTER PROJECT 2013

We have completed our 4th Project on 17th of February 2013.

The highlights of the project are given below:

- The Winter Project 2013 was Annual Sports Meet in village Satjelia (Sunderbans). This sports event gives the students an opportunity to display their mental and physical abilities.
- Four primary schools of the local area participated in the event.
 - i. Satjelia Abaitanik Prathamik Vidyalaya.
 - ii. Emlibari Abaitanik Prathamik Vidyalaya.
 - iii. Mitrabari Saraswati Smriti Abaitanik Prathamik Vidyalaya.
 - iv. Central Satjelia Abaitanik Prathamik Vidyalaya.
- The sports began at 10 o'clock in the morning on 17th Feb 2013 and ended by 1 pm.
- On the sports day the adverse climatic condition (depression and rain) restricted the normal curriculum as programmed and had to be modified and also cut short to complete the event. The turnout among the participants was also not as expected due to bad weather. About 150 students attended the program and participated in the events.
- In spite of all adversities our team of 9 member volunteers with the enthusiast school faculty and locals, most efficiently conducted and finished the events in time.
- After the sports meet all students and the people present in the field was served cakes and biscuits as small refreshment.
- As the turnout of students was short due to adverse weather conditions there was sufficient leftover cakes and biscuits. These were donated to Smt Kanta Chakraborty for the children of her child rehabilitation centre in Dum Dum.
- The details of collection and expenditure of this project along with the few photographs of the project and also our recently concluded infrastructure projects is enclosed.
- The complete photographs and videos of the recent and the earlier projects along with infrastructure projects are available for viewing in our website "www.abha.org.in" under the tab "Album".

"You cannot teach a child any more than you can grow a plant. All you can do is on the negative side — you can only help. It is a manifestation from within; it develops its own nature — you can only take away obstructions."
