

SUMMER PROJECT 2013

(Annual Sit and Draw competition for Art Education / Gift of Sports Material to Schools for Physical Education)

We completed our 5th Project on 29th of September 2013.

The highlights of the project are given below:

- The benefit of the Art Education for Children is immense. It not only stimulates and develops the imagination and critical thinking, and refines cognitive and creative skills but also has a tremendous impact on the developmental growth of every child and has proven to help level in the "learning field" across socio-economic boundaries.
- In keeping with the above we have included two more primary schools i.e, a total of four primary Schools in the local area of village Satjelia are covered.
 - i. Satjelia Abaitanik Prathamik Vidyalaya.
 - ii. Emlibari Abaitanik Prathamik Vidyalaya.
 - iii. Mitrabari Saraswati Smriti Abaitanik Prathamik Vidyalaya.
 - iv. Central Satjelia Abaitanik Prathamik Vidyalaya.
- Our activity began with Annual Drawing Competition at 10 o'clock in the morning on 29th Sep 2013 and concluded by 1 pm with handing over of play items to the Teacher In charge of the participating schools after prize distribution.
- On the day the adverse climatic condition (depression and heavy rain) and geographical location of the village subjected our team of 15 volunteers with extreme difficulty but their untiring effort has once again brought happiness among the participating 80 students and the program was a big success.
- We received full cooperation from the teachers of the four schools, village elders and the guardian.
- After the competition cakes and biscuits were distributed among the students and other members present as small refreshment.

A Movement for a Fit and Healthy Nation:

- As we know that the best way to reduce the Obesity Level / Sedentary Level / to improve student performance in Academic is Physical Education. PE is equally important as AE.
- Physical education provides unique opportunities for children to move with ease and confidence as they enjoy actions such as running, turning, twisting, chasing, throwing, catching, striking, floating and balancing. They are encouraged to respond to challenges to the mind and body, to participate, to compete and to co-operate with others.
- As a Primary Curriculum Tools we have provided the following indoor and outdoor playing items to the four schools.

“You cannot teach a child any more than you can grow a plant. All you can do is on the negative side — you can only help. It is a manifestation from within; it develops its own nature — you can only take away obstructions.”
